Rally d'Italia Sardegna - Day one

Info Simaxis C

3 – Meeke: The second loop was easier. The stages were cleaner and I found my marks. It felt decidedly better.

5 – Andersson: I did not have the problems from the first loop any more. I have more grip and the feeling with the car is improving. I wasn't flat out since I had some intercom problems.

6 – Kopecky: It's getting better, a pity for this morning's mistake. The next stages will be narrower and with more rocks.

16 – Trentin: I broke a driveshaft on SS 4, and lost a lot of time as a result.

11 – Andreucci: I am happy after this loop, as I was less at an advantage compared to this morning: now we are all in the same conditions. I was careful not to get a puncture in the long stage, maybe I could have gone faster. If the standings remained as they are, we will be in a good position for tomorrow. But we must be careful because there are still two passes on Monte Lerno, a short but tricky stage.

10 – Neuville: Much better. I am happy to be still here, after all these retirements, as the rally is really difficult. I am finding the right feeling with the car.

14 – Arminen: Everything ok. I am satisfied, but it's impossible to fight with the Super 2000.

8 – Magalhaes: I was 15' late leaving Service Area, and I wasn't OTL for only 8". I changed my suspension set-up and fixed the brakes, and I will now try to finish.

26 – Dettori: I am trying to keep my position without taking risks. The event is proving to be very demanding for the cars.

27 – Licerì: I lost 6' in the Monte Grighine stage as I had a puncture after hitting a rock while I was in 5th gear. I am happy anyway and this is important.
